

# YEAR 8 P + E SUMMER HOMEWORK

This homework is about helping you transition from KS3 into KS4 and get you thinking about the next few years ahead when studying Philosophy and Ethics for your GCSE. This homework is not designed to be exam focused, but get you looking at the news and media and seeing how they react to and report on religion. This will be useful because in Year 9 we will directly be looking at the place of religion in the UK and other countries today.

## **WHAT TO DO**

Over the Summer Holiday's you need to create a document which contains a range of different news issues relating to Christianity and Islam.

Your document could be a collage, a mind map, Cornell Notes, written notes, bullet points etc, the choice is yours. Your document should include:

1. News articles on Christianity and Islam – have they been mentioned in the news? What has been said about them?
2. Any media presence – this could be festival information, pilgrimage information (Hajj ended in early July but there are plenty of pieces about this, famous people discussing their faith etc)
3. How these religions are shown in your own personal Social Medias. Who is posting about them? What is being posted (could be Hijab tips, prayer advice, Church information etc)
