Year 9 IT Summer HW 2025 - Excel skills

In year 10 you will be focussing on two NEA projects.

Project 1 will be on a spreadsheet task.

Project 2 will be on Augmented reality.

For your summer homework, I would like you to brush up on Microsoft Excel Skills.

I would like you to focus on the Data Analysis section on WS3schools.com.

I have attached the PPT that you must work on.

The instructions are on slide 2.
