

# Science Summer Home Learning Instructions

## Steps to Complete the Assignment

1. **Complete the Test Papers**
  - Fill out one test paper for each science subject provided in the attachment.
2. **List the Topics Covered**
  - Write down all the topics that are included in the test papers you completed.
3. **Mark Your Work**
  - Use the mark schemes found in the designated folder to check your answers and mark the test papers you have completed.
4. **Identify Weaknesses**
  - Make a note of any topics you found challenging or consider to be your weaknesses.
5. **Prepare Evidence for Your Teacher**
  - Gather all your completed tests and notes to show your class teacher as proof of your summer homework.
