

Dear Parent/Carer,

COVID-19 Update

Further to yesterday's communication, we received information overnight that the follow up PCR test was negative for the student believed to have COVID-19, so isolating staff and students will be able to return to the Academy in line with Government guidance.

It once again highlights how we can help to keep our community safe by doing regular testing, swiftly isolating and conducting a PCR test.

We thank all students who needed to isolate for a short period for their understanding and their parents for their swift response to our Track and Trace.

For today (Tuesday), students will continue to access learning from home but, following their routine lateral flow tests in the morning, will return to the Academy for face to face teaching on Wednesday 16th June.

Kind regards,
Miss Whiteman
