Full [details can be found here.](#)

Transport for London have a range of apprenticeship opportunities currently available from Level 2 upwards.

[Please follow the link to discover further details.](#)

Mercedes-Benz are currently recruiting for apprentices across a variety of roles, in our nationwide network of retailers and dealers.

With vacancies for Light Vehicle and Heavy Vehicle Technicians, Customer Service Experts and Retail Parts Advisors.

Please [follow this link](#) and enter your home postcode, to search for vacancies in their local areas and then make an application.

Vacancies are constantly changing, with new positions being added regularly. If a student is unable to find something in their local area initially, please do encourage them to check back regularly as new positions may become available.

Apprenticeships are open to students who are 16 and over (they must be 16 to start the programme in September, so can apply whilst they are 15), and ideally students should be predicted to obtain a grade 4 or above in English and Maths at GCSE. We do offer functional skills where these grades have not been achieved.

Niftylift offers various Engineering Apprenticeship programmes, which include college-based learning and in-house training plans:

- Level 2 Trainee Manufacturing Operative
- Level 3 Trainee Manufacturing Technician
- Level 3 Technical Support Technician
