

Are you able to turn a problem into an opportunity?

If walking or cycling to school for your child is really not an option, could you be so kind as to consider dropping off and maybe even collecting your child a distance from the Academy - perhaps by using one of the star points below (Google images overleaf)? This act of community spirit would create many benefits:

- Your child/ren would gain some fresh air and exercise, helping their physical and mental wellbeing
- Traffic congestion would be reduced
- Your child would have an opportunity to gain some independence
- Additionally, you may find the drop off/ pick up is a more relaxing experience for you!

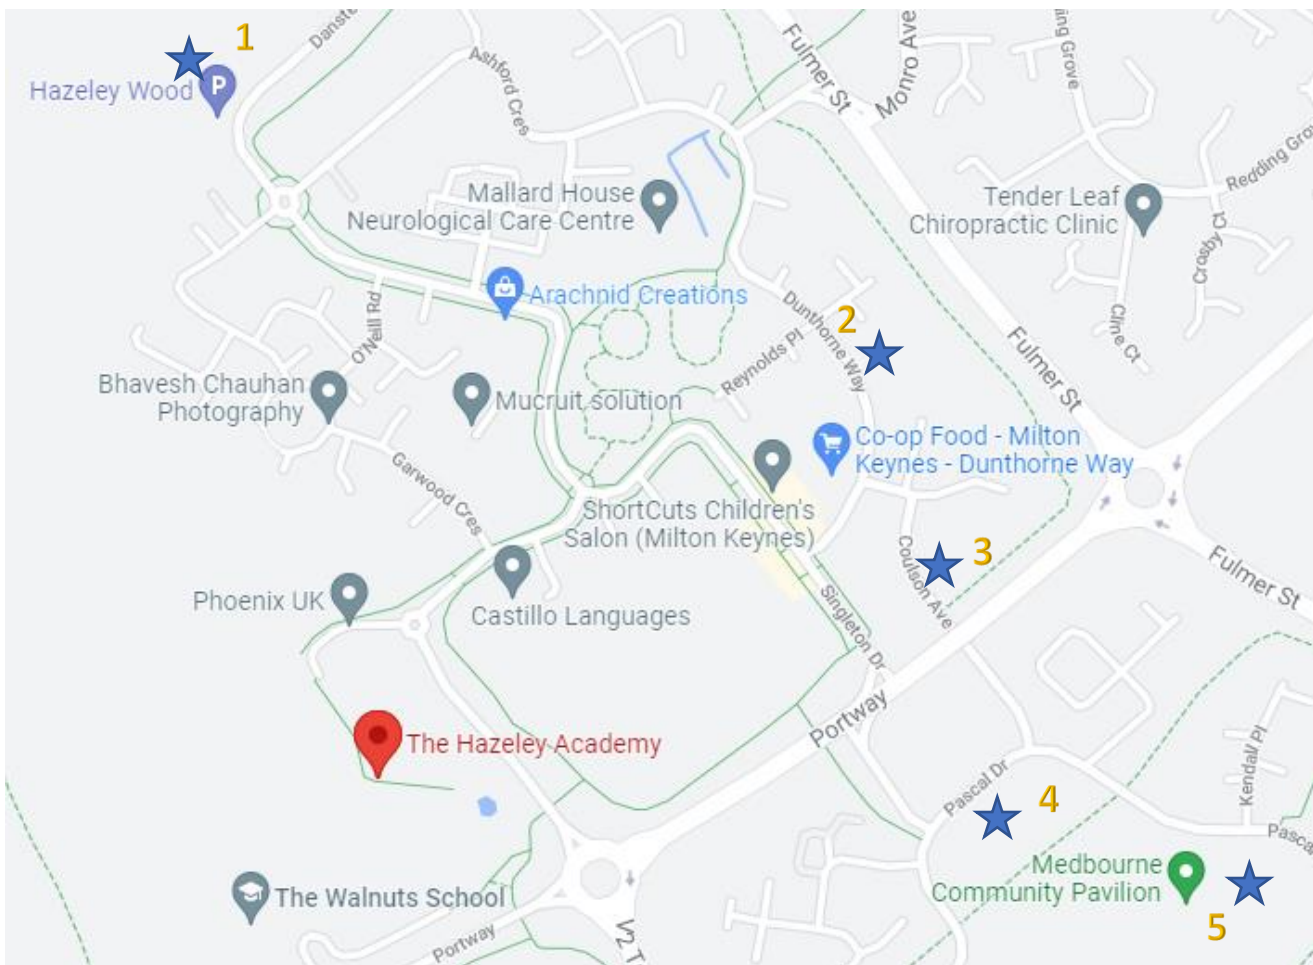

Of course, it would also require you to park responsibly so as not to create upset to others. We also appreciate that for a small number of you with children with special needs or other barriers this may not be possible.

We all want to be part of a great community, and this is created by us all playing our part when we can.

As always don't hesitate to pass on your feedback or ideas by emailing enquiries@thehazeleyacademy.com

Turning a challenge into an opportunity and looking for opportunities to make a difference is a key characteristic of the Hazeley community.

Thank you for playing your part

Google images of the points indicated on the map overleaf.

These are just some suggested places a short distance from the Academy you may consider using to drop off/ pick up your child.

As always please be considerate of residents and road users.
