

Hazeley Sixth Form

Core Maths

EXAM BOARD: AQA

SPEC CODE: 1350

ASSESSMENT: EXAM

This course focuses on using familiar Maths concepts, as well as a few new ones, in a range of contexts to help prepare students to be competent and confident in using maths in their studies, careers and lives. It provides useful mathematical skills for students studying courses such as A Level Psychology, Economics, Geography and Business as well as technical and vocational qualifications. Students also learn key topics about mortgages, insurance, income, taxation and other key topics from personal finance to help them develop essential skills for adult life.

The content is split into two sections: Mandatory content: Critical analysis, analysis of data, maths of personal finance and estimation. Optional content (Statistical Techniques): Students will be covering topics such as sampling, correlation and regression, probability, statistical modelling and the normal distribution.

It is a one-year course to be taken alongside the chosen A-Level/vocational courses. It carries UCAS points. A final exam will take place in the Summer of Year 12.

Growing a vibrant community of exceptional people
by developing character, confidence, and creativity
by growing through taking part, volunteering, and getting to know ourselves and each other.
