

# Hazeley Sixth Form

## Geography A level

EXAM BOARD: EDEXCEL

SPEC CODE: 9GEO

**ASSESSMENT: 3 EXAMS AND A NON-EXAMINED ASSESSMENT (A WRITTEN REPORT 3000-4000 WORDS BASED ON A COMPULSORY RESIDENTIAL FIELD TRIP IN Y12)**

Whilst maintaining a balance between Human and Physical Geography, A-Level Geography allows us to look at the subject in a much broader context, with a greater focus on current affairs and making sense of the world around us. The wide range of topics that are studied provides a foundation for further study, not only in Geography but in a wide range of other subjects. The knowledge and skills developed by A-level Geography students are also prized by employers, giving this qualification high value in the job market.

A-Level Geography provides an opportunity to learn about, and discuss, the ideas of resource management, natural hazards, geopolitics, changing landscapes, international development, climate change and many more global issues.

The geography department has also been awarded the Secondary Geography Quality Mark by the Geographical Association for recognition of excellence in teaching and learning. This award highlights the focus of the department in delivering the best possible A-Level course to our students in an ever changing and uncertain world. In short, the world needs more Geographers.

It is highly recommended to study core mathematics alongside your geography A-Level. The skills that are studied and perfected in core mathematics will allow you to make sense of and critically analyse data to aid your geographical understanding, while also providing holistic skills needed for future employability.

Growing a vibrant community of exceptional people  
by developing character, confidence, and creativity  
by growing through taking part, volunteering, and getting to know ourselves and each other.
